A Message from the Borough of South Plainfield, OEM, & Police.

The National Weather Service has issued a Flood Watch for our area starting Tuesday January 9th, 2024 Through Wednesday January 10th, 2024. 1 to 3 inches of Heavy rain, tidal inundation, and runoff, is likely to cause an elevated Flood and Flash Flood risk to our area. There may be high winds which may cause isolated instances of power outages due to tree damage. In advance of this storm, please plan accordingly, by moving vehicles out of flood prone areas and elevating household items out of harm's way. If it's necessary to drive during this storm, avoid driving through flooded roadways. Please continue to monitor the National Weather Service <https://www.weather.gov/phi/> and/or the South Plainfield Police Facebook Page <https://www.facebook.com/SPPDNJ/> for additional updates throughout this weather event.

For Power outages in our area you can contact PSE&G at 1-800-436-7734 or utilize their Outage map at <https://outagecenter.pseg.com/external/default.html> for update outage information.
